**Description:**

<p><b>Keeping Your Trunk Organized Is Hard</b></p>

<p>We'd all like clean and tidy cars, but the constant stress of life makes it easy for junk to build up. In cluttered trunks, we lose important papers, school assignments, pharmacy prescriptions, old snack food, etc.</p>

<p>It also makes it easy to break fragile goods when going around a sharp turn or suddenly applying the brakes (you don't want to shatter your eggs when someone pulls out in front of you!) Finally, it makes it especially difficult to get to safety equipment like jumper cables, road flares, and spare tires. Even if just for safety's sake, you need a trunk organizer!</p>

<p><b>Wide Variety Of Configurations</b></p>

<p>Your trunk organizer is split into two main sections and three separate pockets—one lidded, one mesh, and one pocket with an elastic securing string. And when you don't need it, your cargo organizer folds up from 23 inches to a mere 2.4 inches.</p>

<p><b>Removable And Extremely Portable</b></p>

<p>Weighing in at only 4.2lbs, this cargo organizer is one of the lightest (and yet strongest) trunk organizers on the market. Easy removal makes getting the groceries up to the house a

breeze, as well as greatly simplifying the cleaning process. Simply pull the organizer out, bring it inside, and wash gently in the sink. It even stands up on its own to make air-drying simple.</p>

<p><b>Premium Materials And Expert Construction</b></p>

<p>This trunk organizer is constructed from heavy-duty 1680D Oxford polyester for vastly increased service life, incredible durability, and a greater carrying capacity (up to 50lbs of cargo). Strong handles, high-quality buckles, and four reinforced carrying eye-holes complement the tougher fabric for an overall high-quality product.</p>

<p><b>Lifetime Guarantee</b></p>

<p>Your trunk organizer is protected with a no-questions-asked lifetime replacement guarantee.</p>
